

OKKO AILIO

I'm a 23-year-old student from Helsinki, currently located in Turku.

I am extensively interested in various study opportunities in the technical field, such as UX/UI design, AI, and web development. My goal is to gain diverse work experience in a field similar to my education, already during my studies. I'm graduating with my bachelors degree this spring, so I'm interested in long term job opportunities that continue after the summer.

Competitive sports has been a big part of my life and I have spent most of my time playing basketball. Team sports have taught me perseverance and resilience to pressure. I have also understood what kind of effort and dedication it takes to achieve one's goals.

As an employee, you can expect me to be determined, punctual and responsible. As a team captain, I have learned to work with different people and the importance of working together to reach a common goal.

LANGUAGE SKILLS

Finnish	native
